

Tampers

Vertical Ballast Tamper

This powerful machine has been designed for tamping and compacting the ballast both on tracks and on switches. It is equipped with a 4-stroke petrol engine and it includes innovative vibration-absorbing handles, which substantially reduce the vibrations transmitted to the body. It is a lightweight equipment and it is very easy to replace the tamping tool.

Technical Data		RCT 1500 P
Item		AF006577
Engine		Honda
Feed		Petrol
Output	kW	1.5
Engine Rotation Speed	rpm	7000
Energy at the stroke	Nm	79
Frequency of the machine	Hz	116
Sound emission level	dB	86
Dimensions (LxWxH)	mm	420x500x1182
Dry weight	kg	19
